

BLACK JACK

Willie & Max is now offering its new Black Jack series bags. The line consists of two styles of saddlebags, compact slant and large, along with a tour trunk, sissybar bag, and tool pouch. All have quick-release buckles for ease of use, and plastic reinforcing for shape retention and added stability. The bags have a clean, smooth look and are constructed using rich black and black hardware accents. Black Jack bags start at \$60.50 for the tool pouch and go up to \$209.95 for the large slant saddlebags. Info: Willie and Max, 800/558-7755, www.WillieAndMax.com.

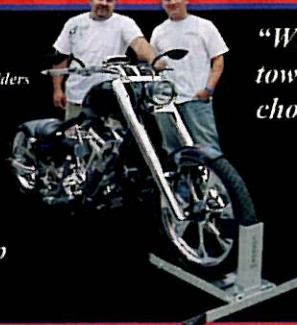

STING LIKE A BEE

Feuling has added a couple of new sets of valve springs to its lineup: endurance BeeHive valve springs and high-load, performance BeeHive valve springs. The endurance BeeHives pack the needed fatigue life to exceed the demands of V-twin engines, from stock to performance. The high loaders can handle the demands of performance engines with high-lift, steep-ramped camshafts. They've proved their salt on the dyno and the track. Info: Feuling, www.FeulingParts.com.
